FILE & DEVICE DETAILS

Device Name
\\.\PHYSICALDRIVE1

Capacity
2.00 MB (2,100,572 bytes)

Device Path
E:\

HARDWARE SPECIFICATIONS

Storage Device
\\.\PHYSICALDRIVE1

Drive Type
File

Serial Number
Not Available

File System
16-bit FAT

COMPLIANCE SPECIFICATIONS

Sanitization Level
Irrevocable Purge

Security Standard
DoD 5220.22-M / NIST

Sector Verification
Bitwise Read-Back Pass

CERTIFICATE

OF SECURE WIPE

This is to certify that the specified storage media has been

SECURELY WIPED

using industry-standard secure deletion methods to ensure complete and unrecoverable data removal.

Wipe Method	:	Single Pass Zeros
Algorithm Used	:	Single-Pass Zero Fill (0x00)
Wipe Start Time	:	15 September 2026, 10:34:55 am
Wipe End Time	:	15 September 2026, 10:34:57 am
Total Duration	:	2 seconds
Status	:	**Successfully Wiped**
Wipe Verification	:	Verified via 4103-sample read-back (PASS; mismatches=0)
Certificate Hash	:	2088CB77F33DCDB468508BAB95E791884B078C57397F3F14...

PERMANENT ERASURE ASSURANCE & LEGAL COMPLIANCE

This document confirms the permanent, irreversible destruction of all stored information. The data sanitization procedure performed strictly adheres to NIST SP 800-88 Rev 1 (Purge) and DoD 5220.22-M specifications. Overwrite patterns have been bitwise verified without errors. Residual data is rendered completely non-recoverable through standard or forensic recovery tools.

Cryptographically Verified Audit Hash — National IT Asset Disposal Compliance Standard

CERTIFICATE ID
SW-2026-09-15-80420CDD

DATE & TIME OF GENERATION
15 September 2026, 10:34:57 am

OPERATOR: PNR_NITHISH

SCAN TO VERIFY CERTIFICATE

Scan with camera to confirm record
Public Real-Time Verification

OFFICIAL AUDIT PROOF

CRYPTOGRAPHICALLY SIGNED
DoD 5220.22-M Compliant
Tamper-Evident SHA-256 Digest
